

# Alpha Quant Dividend Equity

## Investment Approach

**Active:** We manage concentrated, active strategies designed to add value through stock selection.

**Transparent:** Our strategies are driven by concepts rooted in fundamental analysis and supported by empirical evidence. Portfolios coherently display specific fundamental attributes.

**Disciplined:** We manage portfolios through a disciplined, rules-based process to insulate ourselves from market noise and to avoid overreaction to short-term events.

## Average Annualized Total Return (%)

	QTD	YTD	1 Year	3 Years	5 Years	Since Inception
Alpha Quant Dividend Equity (Net)	2.38	2.38	12.19	10.51	13.10	13.78
Alpha Quant Dividend Equity (Gross)	2.65	2.65	13.43	11.73	14.35	15.03
S&P 500®	6.07	6.07	17.17	10.37	13.30	15.20

## Average Annualized Total Return (% , Net of Fees)

## Growth of \$100,000 (Net of Fees)

Valuations and returns are computed and stated in U.S. dollars. Results reflect the reinvestment of dividends and other earnings. Gross of fee returns are presented before management and custodial fees, but after all trading expenses and withholding taxes. Net of fees returns are calculated applying the maximum potential annual fee of 1.1% and are presented after all management, custody, trading and withholding taxes. Composite inception date is 1/1/2012..

**Firm and Composite Information**

Alpha Quant Advisors, LLC ("Alpha Quant") is an investment advisor registered with the Securities and Exchange Commission under the Investment Advisors Act of 1940 that manages focused equity and multi-asset portfolios. Alpha Quant is an independent affiliate of American Beacon Advisors, a SEC-registered investment advisor. Prior to October 14, 2016, Alpha Quant was known as Crest Investment Partners LLC. The firm only transacts business in states where it is properly registered, or is excluded or exempted from registration requirements. SEC registration does not constitute an endorsement of the firm by the Commission nor does it indicate that the advisor has attained a particular level of skill or ability.

The Dividend Equity Composite comprises equity portfolios invested according to our Dividend Equity strategy. These are focused 30-40 stock, long-only, large US-listed equity portfolios. Selected stocks display high creditworthiness, long history of increasing dividends and attractive dividend yields. The strategy follows a systematic discipline, typically with quarterly rebalancing. Interim adjustments may be made to the portfolios due to corporate events. The minimum account value for inclusion in the composite is \$100,000. The composite was created January 1, 2012. A complete list and description of firm composites is available upon request.

**Benchmark Description**

The benchmark is the S&P 500 index, with dividends reinvested, a broad-based unmanaged index of 500 stocks, which is widely recognized as a representative of the U.S. equity market in general. It is not possible to invest directly in an index.

**Performance Calculations**

Valuations and returns are computed and stated in U.S. dollars. Results reflect the reinvestment of dividends and other earnings. Gross of fee returns are presented before management and custodial fees, but after all trading expenses and withholding taxes. Net of fees returns are calculated applying the maximum potential annual fee of 1.1% monthly and are presented after all management, custody, trading and withholding taxes. The standard management fee for the Defensive Equity strategy is 1.1% per annum on the first \$3 million, with a tiered fee schedule on additional assets. Additional information on our fees is included in Alpha Quant's ADV Part II. Policies for valuing portfolios, calculating performance, and preparing compliant presentations are available upon request.

**Past performance is not indicative of future results.**

This does not constitute an offer or solicitation in any jurisdiction where to any person to whom it would be unauthorized or unlawful to do so. Opinions expressed are current opinions as of the date appearing in this material only. This information should not be considered investment advice or a recommendation to buy or sell any particular security. While every effort has been made to verify the information contained herein, we make no representations as to its accuracy. The information in this material and specific securities mentioned are not representative of all securities purchased, sold or recommended for advisory clients. Actual portfolio holdings will vary for each client and there is no guarantee that a particular client's account will hold any, or all, of the securities identified. It should not be assumed that any of the securities or recommendations made in the future will be profitable or will equal the performance of the listed securities.

No current or prospective client should assume that the future performance of any specific investment or strategy will be profitable or equal to past performance levels. All investment strategies have the potential for profit or loss. Changes in investment strategies, contributions or withdrawals, and economic conditions, may materially alter the performance of your portfolio. Different types of investments involve varying degrees of risk, and there can be no assurance that any specific investment or strategy will be suitable or profitable for a client's investment portfolio. Historical performance results for investment indexes and/or categories, generally do not reflect the deduction of transaction and/or custodial charges or the deduction of an investment management fee, the incurrence of which would have the effect of decreasing historical performance results. There are no assurances that a portfolio will match or outperform any particular benchmark.
